INTRODUCTION

ECM student with strong foundation in algorithms and software development. Experienced in Python, C/C++, and Java with projects in machine learning, embedded systems, and predictive modeling. Active in competitive programming (200+ problems solved on LeetCode)

EDUCATION

Vellore Institue of Technology, Chennai

June 2027

B.Tech Electronics and Computer

Current GPA: 8.61/10.0

Senior Secondary

June 2020 - March 2022

Delhi Public School, Raipur

COURSEWORKS

Courses: Object-Oriented Programming, Data Structures & Algorithms, Embedded Systems, Discrete Math, Linear Algebra, Calculus, Physics, Probability & Statistics, Design and Analysis of Algorithm, Theory of Computation, Computer Network, Database Management Systems

SKILLS

Programming Languages: C/C++, Python, Java

Tools: Git/GitHub, VS Code, Kaggle, Embedded Systems, Microcontroller Programmin

Machine Learning : Machine Learning (Advanced), NumPy, Pandas, Matplotlib, Data Analysis, Predictive Modeling

PROJECTS

Market Tracer using LSTM | Python, Machine Learning

January. 2026

- Built an LSTM-based model to predict short-term stock market direction (UP/DOWN) using technical indicators.
- Evaluated using walk-forward time-series validation and compared against a naive baseline
- Deployed a Streamlit app with live data ingestion via Yahoo Finance for real-time inference

Predictive Modeling for Real Estate Valuation Using Linear Regressio | Python, Machine Learning May 2024

- Developed a predictive model to estimate house prices based on key features.
- Applied linear regression techniques to analyze historical housing data and establish correlations between features and pricing.
- Visualized data trends and model performance using libraries such as Matplotlib

CERTIFICATION

Machine Learning Specialization (Coursera, Andrew Ng) — Completed

December, 2025

- Mastered supervised learning techniques, including Linear Regression, Logistic Regression, and advanced Classification models.
- Developed a strong theoretical foundation and practical skills in implementing modern ML workflows.

HIGHLIGHTS

LeetCode

Solved over 250 question and is rated 1350

CodeChef

Global Rank 2750 in Starters 196
